Word typing even when you stay away from PC

# What are the advantages of soft laser?

- Avoid direct laser contact with humans and reduce harmful effects
- As there is a trend for corporations to use LCD/ Plasma TV in meetings and presentations, yet, hard laser (traditional laser) could not be projected on LCD/ Plasma TV. Thus, a new reform is needed for the advancement!

Soft laser will be the right solution to this problem. It can be projected on LCD/ Plasma TV and certainly will become a preferred tool for meetings from now on!
