Earth Trek Tape Dispenser with 4-Port USB Hub (Small/Silver)

This snazzy gadget fuses two items necessary in any modern office workspace, the tape dispenser and USB 2.0 hub. There is one port in the front of the tape dispenser as well as the connector port and three rotary ports in the back that can each rotate 180 degrees to fit your needs. To further reduce clutter, no power adapter is needed. The Earth Trek tape dispenser/hub works with small devices such as your mouse and USB drive but may or may not work with large devices such as scanners and printers. Comes with connector cable for connecting to your computer and one roll of tape.
