The 2 in 1 Rotary Multi card reader from Earth Trek

Rate this News:

Searching for a easy to handle and versatile USB card reader? Well, you should consider this new 2-in-1 rotary USB card reader from Earth Tek in Hong Kong, which not only allows you to read MS or SD Cards (Micro SD as well), but can also be used in order to charge your mobile phone.

Press Release

This 2-in-1 rotary multi card reader with mobile charger is a USB 2.0 high speed device specially designed for fast growing multi-media mobile industry. Allow you to download music, photo, movie and data files in between computer and mobile in a more efficient way. It is designed as a bridge between USB and SD/MS/Micro SD (T-flash) card and these types of memory card have been widely used by mobile phone market.

Our unique patented turning connector offers flexibility to users and memory cards could be inserted vertically. This card reader is compatible for both left hand side and right hand side according to the USB ports location of different computer models. An innovative design of 360° LED indicator around the turning connector allows you to read the signal at any directions. With the complimentary mobile phone adaptors and charging cable, you may charge your mobile phone as well.
