Your USB Scotch tape dispenser, by Earth-Trek

Date: Thursday 22 February, 2007

There's nothing more common today than finding a Scotch tape dispenser or a USB hub on a desk. What's less common is to find these 2 elements combined in one product! Earth-Trek, a company based in Hong Kong, created the first USB 2.0 hub with a Scotch tape dispenser.

According to the manufacturer's website a variety of different colours are available, and each version comes as standard with three downstream ports (all of which can be rotated through 180 degrees) and data transfer rates of up to 480Mbps. No external power is required and they're compatible with Windows 98/ SE/ ME/ XP/ 2000, Mac OS 8.6 or higher.

REVIEWS: +

Excellent quality and perfect fit on my P990i. This is a highly recommended case for anyone that wants a silicon case and at a much lower price than other competitors. The service at LIV3 has been quick and efficient and they pay close attention to customer service. Great Job!
