## Earth Trek to introduce the Luggage mouse

Posted in [Mouse](#) by Conner Flynn on September 16th, 2010

If you are a frequent traveller, then you know a thing or two about luggage. You probably see too much of your luggage. But if you actually love luggage, then check out these mice by Earth Trek. The Japanese market will go crazy for these. It's the Luggage Mouse.

Yes, it's shaped and designed to look like a piece of luggage, though it won't carry anything. It is lightweight and shock-resistant and will be available in [Japan](#) soon in four different colors.

Nothing on pricing yet though.

[Akihabara]
